Subject: Confirmed case of COVID-19 East Hill (**General letter to all**)

Dear Parents and Staff members,

This letter is to inform you that East Hill School has received a positive COVID-19 / Variant test result(s) today.

We have closed one class and informed the families who have children in that class/ bus and in daycare too. We are collaborating with the health authorities to identify and monitor those who have recently been in close contact with this (these) individual(s) and are following public health instructions diligently.

To limit transmission, individuals who have been in close contact with the affected person have been instructed to stay home pending further directives from Public Health. Parents of students who may have been exposed through classroom contact have all been contacted. If you have not received a call, your child is not part of the currently identified group of students in contact with a positive Covid-19 case.

We must respect confidentiality and as such, we are not able to provide additional information. The school remains open and continues to apply all necessary measures to prevent further spread.

Please do not contact the school to request information as everything is confidential.

We invite you to be particularly vigilant regarding your state of health.

If you have one or more of the symptoms listed below, please call 514-644-4545 without delay to assess the appropriateness of making an appointment for a screening test for COVID-19.

You can also consult the COVID-19 symptom self-assessment tool online, at <https://www.quebec.ca/santc/problemes-desante/az/coronavirus-2019/guide-auto-evaluation-svmptomes-covid-19/>.

easthill@emsb.qc.ca

The symptoms to look out for are:

- Fever: oral temperature of 38 C (100.4 ° F)
- Loss of taste and smell
- Cough (new or worse)
- Nausea
- Vomiting
- Diarrhea
- Sore throat
- Headache
- Great fatigue
- Significant loss of appetite
- Generalized muscle pain unrelated to physical exertion.

Our priority remains the health of our students and staff.

Rest assured that we are monitoring the situation closely in collaboration with the regional public health authorities.

Warm Regards

L. Amato
Principal

C. Canale
Vice-Principal
